

TASTO DESTRO DEL MOUSE e SCEGLI:
"ispezione" o "analizza elemento"

SCEGLI UN ELEMENTO HTML e legine il SUO STILE nel file CSS
 ..a quel punto metti il cursore sul nome del CSS e vedi dove si trova nel dominio,

poi tasto DX e scegli "Open new Tab"

The screenshot shows a website for 'smartphone OFFERTE SHOCK'. The page features a navigation bar, a main banner with the text 'ULTIME USCITE E ANNI PRECEDENTI' and 'TANTO RISPARMIO E AFFIDABILITA'', and a sidebar with social media icons. A code editor window is overlaid on the right side of the page, displaying JavaScript code. Red arrows and labels (A, B, C, D, E) are used to highlight specific elements: A points to the 'Run' button in the code editor; B points to the 'smartphone OFFERTE SHOCK' logo; C points to the 'TANTO RISPARMIO E AFFIDABILITA'' text; D points to the 'ULTIME USCITE E ANNI PRECEDENTI' text; and E points to the 'Run' button in the code editor. The code editor also shows a 'Run' button and a 'Run' button.
